

Hosted Exchange

Premium Managed E-mail

NEC's offering of Hosted Exchange Premium Managed E-mail powered by Microsoft Exchange Server provides enterprise grade e-mail as a service at a monthly fee.

Powered by Microsoft Exchange Server

Product Features:

- Multiple mailbox storage plans
- PC & Web Access Mailboxes (PC Outlook client available on some plans only)
- Shared Calendars, Contacts and Public Folders
- Mobile Access Support using Exchange ActiveSync technology - support for iPhone, Pocket PC, Windows Mobile and most Symbian Series 60 devices
- Anti-spam and Anti-virus
- Cloud based e-mail storage

Advanced Features

- No upfront costs or lock-in
- Pooled storage across your company accounts
- Optional Additional Storage
- Optional Blackberry Support and mailbox Synchronization

E-mail Wherever You Are

Access Email, Contacts, Calendar, Public Folders, Archive Folders, Meeting Planner and Task Lists when away from the office - all you need is an internet connection or a suitable mobile device to access your e-mail. Hosted Exchange by NEC supports mobile device synchronisation to either your iPhone, Blackberry, Pocket PC, Windows Mobile and even most late model Symbian devices including Nokia devices. This means that you will never miss another important e-mail or appointment.

Data Security & Redundancy

All mailbox plans come with in-built spam and anti-virus filtering in the cloud. In addition, when using Managed Exchange a copy of all your data is stored in NEC's Data Centre, providing you an automatic mail archiving solution in the cloud.

Software as a Service

Hosted Exchange by NEC is a true SaaS solution. This means there are no upfront software licensing costs involved. You simply pay a monthly fee per user to get access to your mailbox.

Fully Managed Hosted Offering

Hosted Exchange hosting and support is provided by NEC. This means you require no servers or infrastructure on your premises to run your e-mail systems. No more waiting for IT staff to get things done.

Hosted Exchange
