Intranet-in-a-box

Insite contains all of the most popular intranet options in a simple and easy to use interface. You will be up and running and populating content within minutes.

Software as a Service

Insite is a true SaaS solution. This means there are no software costs involved. You simply pay a monthly fee per user to get access to your intranet software.

Fully Managed Hosted Offering

Insite hosting and support is provided by NEC. This means you require no servers or infrastructure on your premises to run this intranet. No more waiting for IT staff to get things done.

Scalable Solution

Add new users or remove unnecessary users simply. Allow the intranet to grow as your business grows.

Multiple Skins

Choose from a range of template skins or alternatively a custom style can be created for you. Your company logo is supported as a standard customisation.

Applications Net Ready

Insite supports Applications Net contact federation and single sign on functionality for other Applications Net business applications. Combine your intranet with other business tools such as e-mail, CRM, asset management and many more.
